

CAMPOS INTEGRATED SOLUTIONS

Custom Control &
Power Systems—
Built In-House

THUNDER
LASER

Campos Integrated Solutions provides a one-stop shop for custom control and power system design and fabrication. Built fully in house, the team is UL508a, UL698a and UL67 certified, backed by electrical designers and engineers in order to customize each solution to the needs of the client while keeping safety and performance at the forefront.

OUR EXPERTISE

As a member of the Campos family of companies, Campos Integrated Solutions has a primary focus on supplying automation and controls solutions to the Manufacturing, Utility, Oil & Gas market. Our wide variety of experience in Engineering and Design allows us to fabricate high quality control and power systems efficiently to the specifications required.

OUR MISSION

We offer a turnkey approach to the design, procurement, fabrication, installation, and commissioning of UL certified control panels to meet the needs required for safe and effective operation of client facilities.

PROGRAMS & SERVICES

UL/cUL Custom Panel Assembly:

Our UL certified panel shop delivers custom, high-quality panels for projects of any size. Capabilities include:

- RTU Panels
- PLC and I/O Panels
- Relay Panels - Control Switchboards
- Power Distribution Panels
- UPS Systems
- Motor Starter and Variable Frequency Drive Panels
- Small Junction Boxes to Large Modular Enclosures
- Original Equipment Manufacturer (OEM) Panels
- Enclosure Modifications and Mechanical Assembly
- Custom Laser Engraving - Identification Tags

Instrumentation, Calibration & Field Service:

Comprehensive electrical and automation design, installation, instrumentation calibration and start-up support for any project - including retrofits and control system upgrades.

- Instrumentation & Controls Design
- Calibration
- Commissioning & Field Service
- Field Certification

Electrical Engineering, Controls Design & Programming:

Automation & Controls team provides complete design and programming solutions Comprehensive electrical and automation support including installation, calibration, commissioning, retrofits, and control system upgrades for any project scope.

- Electrical Engineering
- AutoCAD & ePlan Design and Schematics
- PLC, HMI & Scada Programming
- Control and Power System Retrofits and Upgrades

Additional Campos Fabrication Services:

The following are provided by our 3 CFAB locations:

- Fully Automated Cutting and Beveling
- Welding, Fit-Up, and Assembly
- ASME U and R Certified Pressure Vessel Shop
- Paint and Specialty Coatings
- Turnkey Skid Fabrication

The future is our promise. OneCampos is how we do it.

Campos operates as one connected ecosystem across **engineering, construction, fabrication, staffing, and analytics—designed**. Clients can engage a single service or multiple phases. When aligned as OneCampos, teams reduce friction and deliver clearer accountability from start to finish.

Campos Operates as **OneCampos**

Why it matters

Infrastructure today demands:
Speed | Clarity | Accountability

One connected team
Fewer hand-offs
Clear ownership

One partner. Many disciplines. Total accountability.

One integrated platform

Foundation

The power of OneCampos:

Faster decisions:

Teams aligned early

Lower risk:

Less friction across phases

Stronger outcomes:

End-to-end accountability

Community impact:

Responsible execution

Safety & Communities

Safety first

Bottom-up safety culture

Community impact

Education and opportunity

Campos Foundation
